Making the Bioinformatics and Genomics Masters Program Affordable

Knight Campus Graduate Internship Program

 internship.uoregon.edu/bioinformatics

Funding Opportunities

Program Cost

Students are required to take 30 on-campus credits and 30 internship credits to receive their master's degree. Approximate tuition for the entire program for the 2022 cohort: \$39,000.

There is no difference in cost for in-state or out-of-state students.

In recognition of the financial impacts of the pandemic and our commitment to accessible education, we have waived the Summer 2022 application fee for all domestic students.

Prior to creating a username for your application, e-mail Jodi Myers (myers2@uoregon.edu) for a fee-waived username and instructions.

Internships

Students who successfully complete the summer and fall coursework will have the opportunity to interview with partner companies.

Students selected by our company partners, or students who have found their own internships, will complete a program-required nine-month paid internship (\$4,000-\$6,000/month) to obtain hands-on training in an industrial, medical, academic, or government setting.

**Average internship nine-month salary in 2021:
\$43,500**

For details on how to apply to the bioinformatics program or scholarship opportunities, please contact:

Scholarship Opportunities

The Bioinformatics and Genomics Track offers a number of need-based scholarships to alleviate financial obstacles that might prevent students from participating in our program. Contact Student Recruiter and Advisor, Allie Hardman.

Graduate Employee

UO departments offer Graduate Employee (GE) assistantships that Bioinformatics and Genomics masters students may apply for in the fall or winter terms of study.

GE compensation package includes:

- Monthly salary
- Full-time tuition waiver
- Mandatory fees subsidy
- Subsidized health insurance premiums, including coverage for eligible dependents
